Wang-Chun Xu, Hong-Fei Zhang, Li-Ran Chen, Bi-Ji Luo, Liang Guo, and Jing-Liang Guo, 2020, Transition from the lithospheric to asthenospheric mantle-derived magmatism in the Early Jurassic along eastern Bangong–Nujiang Suture, Tibet: Evidence for continental arc extension induced by slab rollback: GSA Bulletin, <https://doi.org/10.1130/B35554.1>.

Supplemental Material

Table S1. Zircon LA-ICP-MS U-Pb data of the early Jurassic mafic rocks from the Kaqiong microblock.

Table S2. Zircon LA-ICP-MS REE (ppm) data of the early Jurassic mafic rocks from the Kaqiong microblock.

Table S3. Whole-rock major (%) and trace (ppm) element data of the early Jurassic mafic rocks from the Kaqiong microblock.

Table S4. Zircon LA-MC-ICP-MS Lu-Hf data of the early Jurassic mafic rocks from the Kaqiong microblock.

Table S5. Whole-rock Sr-Nd isotopic data of the early Jurassic mafic rocks from the Kaqiong microblock.
