## Supplemental Material

### **Table S1.** Basin vs Taxon

**Figure S1:** The results of a two-way Jaccard cluster analysis of the “Basin vs Taxon (SR)” dataset using a neighbour joining algorithm. Also indicated (green circle) are Malvinohosan index brachiopod genera. This figure is the result of a two-way Jaccard cluster analysis of the dataset with all single occurrence taxa removed (see “Basin vs Taxon (SR) Excel worksheet).
