

Qi-Wei Li, Jun-Hong Zhao, Mei-Fu Zhou, and Jian-Feng Gao, 2021, Mafic-ultramafic intrusion formed by multi-stage evolution of hydrous basaltic melts: GSA Bulletin, <https://doi.org/10.1130/B35920.1>.

Supplemental Material

Table S1. Electron microprobe analyses of spinel.

Table S2. Electron microprobe analyses of olivine.

Table S3. Electron microprobe analyses of clinopyroxene.

Table S4. Electron microprobe analyses of orthopyroxene.

Table S5. Electron microprobe analyses of plagioclase.

Table S6. Electron microprobe analyses of amphibole.

Table S7. EC-AFC modeling results for the contamination of average lower crust.
