

Ke Zhao, Xuebin Du, Yongchao Lu, Fang Hao, Zhanhong Liu, and Jixin Jia, 2020, Is volcanic ash responsible for the enrichment of organic carbon in shales? Quantitative characterization of organic-rich shale at the Ordovician-Silurian transition: GSA Bulletin, <https://doi.org/10.1130/B35737.1>.

Supplemental Material

Appendix 1. TOC, major element and trace element analysis results of samples from the Wufeng and Longmaxi formations.

Appendix 2. Ash correction calculation results for the study area based on ash data from this and previous studies.
