Yunying Zhang, Min Sun, Jiyuan Yin, Chao Yuan, Zhen Sun, and Xiaoping Xia, 2022, Subduction initiation of the western Paleo-Asian Ocean linked to global tectonic reorganization: Insights from Cambrian island-arc magmatism within the West Junggar, NW China: GSA Bulletin, <https://doi.org/10.1130/B36304.1>.

Supplemental Material

Table S1. Zircon U-Pb dating results for the felsic and gabbroic plutons from the West Junggar, NW China.

Table S2. Zircon Hf-O isotope compositions for the felsic and gabbroic plutons from the West Junggar, NW China.

Table S3. Whole-rock major and trace element compositions for the felsic and gabbroic plutons from the West Junggar, NW China.

Table S4. Trace element compositions of zircons in the felsic and gabbroic plutons from the West Junggar, NW China.
